JENNY WORRALL DESIGNS
ENGLAND

Our iconic Jenny Worrall brand boasts a range of truly exquisite table lamp designs. Created using the traditional technique of potichomania, delicate decals are applied by hand within the base of the lamp. Each lamp design is then carefully built up with fifteen to twenty layers of hand sponged lustre and colour to create the finished effect.

Keep an eye out for our Royal Horticultural Society collaboration designs, featuring elegant flora and fauna designs. You'll see an RHS logo identifying these lamps throughout the collection.

Shade Guide

Shading a light is subjective and we all have our own personal style we want to showcase, but just to get you started we've put together a handy guide here.

RULE OF THUMB

As a general rule, make sure the height of your base is the same diameter as your shade.

However, on slimmer bases, such as candlesticks, reduce the diameter of the shade to half the size of the base for a better effect.

You also want to make sure the shade doesn't expose any of the hardware underneath such as the lampholder when looking straight on to the lamp.

SHAPE IT UP

If the base is round, it will look best with a cylinder or tapered cylinder shade.

A square or angular base generally looks best with a corresponding square shade, or softened with a oval shade.

A candlestick lamp looks good with just about any shape of shade.

STYLE IT UP

A textural, natural-feel shade looks great on a wooden base; Milos, Edward, Winston, Henry and Lino.

Crystal or glass bases suit bright and monochrome colours with more of a silky finish; Cynthia and Zara.

We have contemporary pleated shades; Josephine, Vivienne and Lyndon and more classic styles; Garbo and Bacall. There are no hard and fast rules - it's personal preference and we offer different profiles within our range to allow for that flexibility.

SHADE INFORMATION

All of our shades come with a detachable reducer to suit E27, B22 & E14 bulbs, making it easy to change the use of your shade across all lamp fittings.

Most of our cylinder shades are reversible meaning that they can be used as a lamp shade or as a pendant using one of our accessories on the facing page.
